7 July 1965

AT
MEMORANDUM FOR:

THRU : Chief, Production Services Division, NPIC

SUBJECT : Print Straightner, 26" Width

At the present time, the Photo Lab Branch has two 14" Print Straightners. We have a need for two additional units, size 26" or larger. Several manufacturers have been contacted and as far as we can ascertain this size item is not available. We, therefore, request your consideration on having two models built for this branch. We will be able to release one of the 14" models for your use in contacting manufacturers for specifications.

Chief, Photo Lab Branch, PSD
